📍 Novi Sad, Vojvodina, Serbia

SUMMARY

I am a professional full stack developer who has expertise in both blockchain technology and full stack development. It means that I have the skills to develop and deploy blockchain-based applications from front-end to back-end, including designing and implementing smart contracts, creating user interfaces, and managing databases. I am proficient in programming languages such as JavaScript, Solidity, and Python, and have a deep understanding of blockchain concepts such as distributed ledger technology, consensus algorithms, and cryptography. Overall, I'm a versatile and highly skilled professional who can create complex blockchain applications that meet the needs of businesses and organizations.

EXPERIENCE

Full Stack Developer

Globa.li

📅 07/2021 - 11/2022

- Created a new front-end app based on React and Redux.
- Added a Hot module replacement plugin to Webpack.
- Worked with legacy code on the server side, able to understand the principles behind it and make it work again.

Blockchain Developer

HiFi-DeFi

📅 2020 - 2021

- Developed an fully functional decentralized application (DApp) with React.js frontend communicating with the Ethereum blockchain.
- Developed various token exchange apps DEX.
- Conducted security audits of Solidity smart contracts.
- Implemented interaction with Ethereum smart contracts using JavaScript and web3.
- Created ICO smart contracts.
- Acted as token economics consultant.
- Developed secure Solidity smart contracts for the Ethereum blockchain.

React Developer

Freelancer

📅 2017 - 2020

- Developed a full SPA with React, React Router, and Redux.
- Developed a mechanism to mutate the state with Redux in a way that it doesn't cause any side effects and allows time travel debugging.
- Created custom website layouts using HTML, CSS, and Bootstrap integrated into the React framework.
- Handled card payment integration for various subscriptions and product purchasing functionalities. Handled card payment integration for various subscriptions and product purchasing functionalities.

EDUCATION

Bachelor's Degree in Computer Engineering

University of Novi Sad

📅 2013 - 2017

STRENGTHS

Good relationship with clients

Always pay attention to his attitude and intention.

Hard Working

To satisfy my client by finish the project in a short time and to the highest quality.

Solving complex problems

Due to my occupational characteristic and hobby.

SKILLS

React

Next.js

TypeScript

Redux

Tailwind CSS

Node.js

Web3

Ethereum

Solidity

DeFi

Smart contract

Socket.io

Vue.js

Django

Python

Laravel

PHP

Mongo DB

MySQL

PostgreSQL

REST APIs

Firebase

Vercel

Netlify

Heroku

AWS
